Buyers Edge Platform Ecosystem Guidelines

# Cool School Cafe

# The Buyers Edge Platform Brand Ecosystem

Cool School Cafe is part of the Buyers Edge Platform (BEP) family of brands, collectively known as the BEP Brand Ecosystem. As a BEP product, many core brand elements—such as the base color palette, typography, and logo lockup—are inherited from the Ecosystem and come pre-established.

However, Cool School Cafe also has its own unique aesthetic and visual identity. While rooted in the BEP system, the brand has space to differentiate itself where appropriate.

This document outlines the logo system. We encourage the Cool School Cafe Brand and Marketing teams to build upon this foundational guideline with an pre-established, or newly-developed brand devises, patterns, layout structures, etc.

Reach out to [gillian.gleason@buyersedgeplatform.com](mailto:gillian.gleason@buyersedgeplatform.com) with any questions.

Section 1

Logo

# Concept

**The Lunch Tray**  
A three cell lunch tray, minimal, but recognizable.

**The Letter C**  
The lunch tray shape, also forms a stenciled block letter C. A simple and ownable form.

**Beautiful balance**  
The forms build a strong, memorable shape that fits cleanly into the ecosystem orb shape. Creating balance in spacing and size, and color relationships.

Logo

# Lockup

The Cool School Cafe Lockup is the face of our brand. Our Lockup should never be modified in any way.

Exclusion zones:

Exclusion zones define the minimum amount of clear space you need around the mark. The diagram on the right will help you judge whether you’ve given it enough space. In general, try to give the logo as much room to breathe as you can.

Colorways:

When using color, our Lockup should only be used in the colorways presented here.

The Full Color Mark set comes in Gradient versions using 5 colors, and “Flat” versions using only three colors. Always defer to the gradient version unless restricted by color limits.

Logo

# Orb Symbol

Our symbol should only be used on its own in specific instances where we determine it absolutely necessary. When in doubt, always defer to our primary lockup.

Colorways:

When using color, our Lockup should only be used in the colorways presented here.

The Full Color Mark set comes in Gradient versions using 5 colors, and “Flat” versions using only three colors. Always defer to the gradient version unless restricted by color limits.

A note on avatars:

We are allowed to pull our icon out of the container shape for avatars/profile photos for any platform or associated social account. In these use cases, exclusion zone rules can be bent to account for the small visual and context. See examples of these lockups on this page. This is the ONLY instance in which The Orb can be dropped.
