Buyers Edge Platform Ecosystem Guidelines

# Healthy Solutions 4 Kids

# The Buyers Edge Platform Brand Ecosystem

Healthy Solutions 4 Kids is part of the Buyers Edge Platform (BEP) family of brands, collectively known as the BEP Brand Ecosystem. As a BEP product, many core brand elements—such as the base color palette, typography, and logo lockup—are inherited from the Ecosystem and come pre-established.

However, Healthy Solutions 4 Kids also has its own unique aesthetic and visual identity. While rooted in the BEP system, the brand has space to differentiate itself where appropriate.

This document outlines the logo system. We encourage the Healthy Solutions 4 Kids Brand and Marketing teams to build upon this foundational guideline with an pre-established, or newly-developed brand devises, patterns, layout structures, etc.

# The Logo Concept

**The Open Book**

The Open Book stands for education, discovery, and learning. It reflects the brand’s mission to teach kids about nutrition in engaging, age-appropriate ways—where every meal becomes a chance to learn and grow.

**Growth and Nutrition**

The Plant symbolizes growth, health, and natural nutrition. It represents the fresh fruits and vegetables at the heart of child wellness, and the idea that healthy habits take root early.

**Beautiful balance**

Together, the forms build a strong, memorable shape that fits cleanly into the ecosystem orb shape. Creating balance in spacing and size, and color relationships.

# Lockup

The Healthy Solutions 4 Kids Lockup is the face of our brand. Our Lockup should never be modified in any way.

Exclusion zones:

Exclusion zones define the minimum amount of clear space you need around the mark. The diagram on the right will help you judge whether you’ve given it enough space. In general, try to give the logo as much room to breathe as you can.

Colorways:

When using color, our Lockup should only be used in the colorways presented here.

# Orb Symbol

Our symbol should only be used on its own in specific instances where we determine it absolutely necessary. When in doubt, always defer to our primary lockup.

Colorways:

When using color, our Lockup should only be used in the colorways presented here.

A note on avatars:

We are allowed to pull our icon out of the container shape for avatars/profile photos for any platform or associated social account. In these use cases, exclusion zone rules can be bent to account for the small visual and context. See examples of these lockups on this page. This is the ONLY instance in which The Orb can be dropped.
