Buyers Edge Platform Ecosystem Guidelines

Restaurant Partners Procurement

The Buyers Edge Platform Brand Ecosystem

Restaurant Partners Procurement (RPP) is part of the Buyers Edge Platform (BEP) family of brands, collectively known as the BEP Brand Ecosystem. As a BEP product, many core brand elements—such as the base color palette, typography, and logo lockup—are inherited from the Ecosystem and come pre-established.

However, RPP also has its own unique aesthetic and visual identity. While rooted in the BEP system, the brand has space to differentiate itself where appropriate.

This document outlines the logo system. We encourage the RPP Brand and Marketing teams to build upon this foundational guideline with an pre-established, or newly-developed brand devises, patterns, layout structures, etc.

Reach out to gillian.gleason@buyersedgeplatform.com with any questions.

Section 1

Logo

The Concept

The RPP logo features an abstract 'R', constructed from interlocking slanted forms. This design is a nod to the legacy logo's distinctive angled geometry.

The angled shapes convey forward momentum, precision, and strategic assembly—all core attributes of RPP's identity. The interlocking nature of the forms reinforces ideas of connection, partnership, and problem-solving, aligning with the brand's role as a trusted advisor and integrator within the foodservice industry.

Logo

Lockup

The Restaurant Partners Procurement Lockup is the face of our brand. Our Lockup should never be modified in any way.

Exclusion zones:

Exclusion zones define the minimum amount of clear space you need around the mark. The diagram on the right will help you judge whether you’ve given it enough space. In general, try to give the logo as much room to breathe as you can.

Colorways:

When using color, our Lockup should only be used in the colorways presented here.

Logo

Orb Symbol

Our symbol should only be used on its own in specific instances where we determine it absolutely necessary. When in doubt, always defer to our primary lockup.

Colorways:

When using color, our Lockup should only be used in the colorways presented here.

A note on avatars:

We are allowed to pull our icon out of the container shape for avatars/profile photos for any platform or associated social account. In these use cases, exclusion zone rules can be bent to account for the small visual and context. See examples of these lockups on this page. This is the ONLY instance in which The Orb can be dropped.
