Buyers Edge Platform Ecosystem Guidelines

# SaveMore

# The Buyers Edge Platform Brand Ecosystem

SaveMore is part of the Buyers Edge Platform (BEP) family of brands, collectively known as the BEP Brand Ecosystem. As a BEP product, many core brand elements—such as the base color palette, typography, and logo lockup—are inherited from the Ecosystem and come pre-established.

However, SaveMore also has its own unique aesthetic and visual identity. While rooted in the BEP system, the brand has space to differentiate itself where appropriate.

This document outlines the logo system. We encourage the SaveMore Brand and Marketing teams to build upon this foundational guideline with an pre-established, or newly-developed brand devises, patterns, layout structures, etc.

Reach out to [gillian.gleason@buyersedgeplatform.com](mailto:gillian.gleason@buyersedgeplatform.com) with any questions.

Section 1

Logo

# The Symbol

## S and \$

SaveMore brings its customers **savings** to maximize their foodservice purchases so they can **drive profits** across all areas of their business.

The Proxima Nova Dollar Symbol is close to mirroring the capital S. With the topical service lines, and monogram S, it feels appropriate and clean in the lockup.

## Legacy Nod

The drop shadow on the S/\$ symbol is a nod to the past SaveMore brand which uses a flexing shape behind the letters in the wordmark.

## Beautiful balance

Together, the forms build a strong, memorable shape that fits cleanly into the ecosystem orb shape. Creating balance in spacing and size, and color relationships.

# Logo

# Lockup

The **SaveMore Lockup** is the face of our brand. Our Lockup should never be modified in any way.

**Exclusion zones:**

Exclusion zones define the minimum amount of clear space you need around the mark. The diagram on the right will help you judge whether you’ve given it enough space. In general, try to give the logo as much room to breathe as you can.

**Colorways:**

When using color, our Lockup should only be used in the colorways presented here

# Orb Symbol

Our symbol should only be used on its own in specific instances where we determine it absolutely necessary. When in doubt, always defer to our primary lockup.

Colorways:

When using color, our Lockup should only be used in the colorways presenented here

A note on avatars:

We are allowed to pull our icon out of the container shape for avatars/profile photos for any platform or associated social account. In these use cases, exclusion zone rules can be bent to account for the small visual and context. See examples of these lockups on this page. This is the ONLY instance in which The Orb can be dropped.
